

## **The Service de sécurité incendie de Montréal at a glimpse**

The mission of the Service de sécurité incendie de Montréal (SIM) is to save lives, protect property and preserve the environment. The department has 65 stations strategically located across the agglomeration of Montréal and can count on the combined efforts of 2,300 firefighters, of which approximately 500 are on duty 365 days a year, 24 hours a day, and 400 administrative employees.

Fire station 77

114 Westminster North

Montreal West (Québec) H4X 1Z4

Residents of the City of Montreal West can also count on the support of any neighbouring station in case of need.

Fire prevention is a very important part of the fire department's work. Citizens living in Montreal West can contact their local prevention office where a team of prevention officers will be able to answer their questions and needs (see contact information below).

### **Firefighter first responder service**

The citizens of Montreal West have access to a firefighter first responder service. These prehospital emergency services are offered in conjunction with Urgences-santé paramedics.

To learn more about this service, please visit our Web site: [ville.montreal.qc.ca/sim/ppr](http://ville.montreal.qc.ca/sim/ppr)

### **Fire safety cover plan**

In October 2008, the department received a certification of compliance from the Minister of Public Security, M. Jacques P. Dupuis, for its fire safety cover plan which was officially approved by the agglomeration council in December of the same year. This is great news for the population because the measures proposed in the plan will allow the Service de sécurité incendie de Montréal to offer an optimal level of fire protection above and beyond the requirements of the ministry.

For more information on this subject, please visit the following Web site:
