Allegheny Serviceberry

Amelanchier laevis

Type: Small native fruit-bearing tree of Québec

Mature Height: Approximately 8 metres

Mature Width: Approximately 5 metres

Sun Exposure: Full sun to partial shade

General Characteristics: A small ornamental tree highly valued for its delicate spring flowering, edible fruits, and attractive fall foliage.

Minimum Safe Distance from Power Lines: 4 metres

Fastigate White Cedar

Thuja occidentalis 'Fastigiata'

Type: Native conifer of Québec (horticultural cultivar)

Mature Height: Approximately 8 metres

Mature Width: Approximately 2 metres

Sun Exposure: Full sun to partial shade

General Characteristics: A conifer with a narrow, columnar habit, exhibiting slow to moderate growth and maintaining dark green evergreen foliage year-round. Hardy and well adapted to Québec's climate, it is suitable for alignments, narrow visual screens, and sites where horizontal space is limited.

Minimum Safe Distance from Power Lines: 3 metres
